

## Business sponsor program - John Paul II Polish School, Inc.

John Paul II Polish School was founded in 2006 as a non-profit organization to develop creative and challenging curriculum for children of Polish heritage. The program will help them develop awareness and understanding of Polish language, culture, history and religion. We are committed to promoting loyalty to America and to be proud Polish-Americans in our community. We are dedicated to foster a sense of community, cultural identity and heritage. To carry out our mission, we have an active Board of Directors to coordinate activities voluntarily.

Please join our "Business Sponsor Program", we appreciate your generosity.
